To Whom It May Concern:

June 11, 2018

It is my pleasure to write this letter of recommendation for Mr. Dennis Frayne. Mr. Frayne was the music teacher at Chester W. Morrison Elementary in the Menifee Union School District for 1 year where I served as the principal of the school. During this time, Mr. Frayne's energy, enthusiasm and passion for our students, parents and staff, was greatly appreciated.

Mr. Frayne could always be counted upon to step in and meet the diverse abilities of the various students he worked with. He worked one on one with students building a strong rapport with his use of well defined, structured classes, practice sessions and positive reinforcement techniques. He closely monitored and assessed student performance during practice to prepare for upcoming performances. Mr. Frayne possesses the unique combination of teaching and interpersonal skills that make him successful with his band and choir students

Throughout the school year, Mr. Frayne clearly and frequently communicated with parents, teachers and administrator. He made many decisions throughout the year pertaining to the band and choir that were sound and beneficial to both students and staff

In conclusion I recommend Mr. Dennis Frayne to your educational leadership program. He will be a good candidate for an advanced degree in education and leadership. He possesses all of the necessary skills to successfully complete the advanced degree he is seeking in the field of education.

Sincerely,

Manuel Valdes
